Let's empower your money to create positive change together.

Our simple 3-step process

Here is how it works for you as a lender:

1 Introduction and alignment

Contact us so we can share who Diverse Nation is and our hands-free investment opportunities, while learning about your interests and expectations.

2 Mutual check and agreement

Both parties collaborate closely to ensure a good fit. This entails a comprehensive review of financials, backgrounds, and legal aspects. We offer the legal agreement for your scrutiny by your solicitor. Once both parties are satisfied, the funds are transferred to us.

3 Continuous connection and transition

Once onboard, interest is automatically paid each quarter to your nominated account. You'll get regular updates from us throughout the term. At the end of the term we return the initial funds to you with any final interest owed, or you can choose to renew the agreement.

That's it! Sit back, relax, and enjoy a fully hands-free, hassle-free lender experience.

Frequently asked questions

What return can I expect on my investment?

Returns vary based on investment amount and term. We do not publish our interest rates online or in our literature to ensure we are adhering to Financial Conduct Authority guidelines, however, we can disclose that our interest rates are at better-than-savings levels - we ensure competitive returns while maintaining financial stability. We are happy to disclose our rates on a call with you or by email.

What are the investment terms with Diverse Nation?

The minimum investment is £5,000, over a 12 month term. We issue quarterly interest payments direct to your nominated bank account. At the end of the term, you can choose to have your initial lump sum returned to you or seamlessly enter into a new agreement. We will contact you in good time before the end of the agreement to understand your needs.

Are there any exclusive investment opportunities available?

Yes, we offer a reserved tier with our highest interest rate for investments above £60k, providing limited but high-return opportunities.

Is my investment legally protected?

Yes, your investment is backed by a legally binding agreement between you and Diverse Nation, ensuring transparency and accountability.

Do you attach security to investments?

Investments above £50k that have been accepted for the specific purpose of the development of a given property, are secured by way of a first or second charge attachment to that property. All other funds received by us are unsecured.

Does Diverse Nation pool smaller sums for large asset acquisitions?

We avoid pooling smaller sums and instead focus on allocating funds to specific small projects, such as furnishing our properties to generate cashflow and we let you know exactly which project your money is helping.

How does Diverse Nation ensure profitability and sustainability?

We adhere to a conservative approach, ensuring projected cashflow is well above the agreed interest rate to guarantee profitability and long-term sustainability.

How do we communicate with you?

We understand that communication preferences vary from person to person. During our initial discussion, we'll determine how frequently and through which channels you'd like us to contact you. Whenever feasible, we prioritise eco-friendly communication methods to align with our commitment to sustainability.

How can I get started with investing in Diverse Nation?

It's simple! Contact us to explore our investment opportunities and start shaping the future of inclusive accommodations while building your financial future.
